WWLSY (M) | WORKSKIN™ light weight performance long sleeve shirt - Hi-Vis

- COOLCORE® performance fabrics use patented three-yarn construction to wick moisture away from the body and keep the garment up to 30% cooler when working in the heat.
- Fast wicking sweat zones extend down the back and under the arms to accelerate drying in high-sweat body areas.
- Chemical free moisture wicking allows shirt to dry faster, reduces saturation and doesn't wash out over time.
- UV protection helps block harmful rays from reaching the skin.
- Durable pilling-resistant fabrics extend product life.
- Drop tail extended back provides extra coverage when working overhead.
- Seamless shoulders reduce discomfort from straps and harnesses.
