

SDS-Plus Drill / Chisel set | SDS-Plus M2 drill bits - 2 cut / cassettes

- Breaker Points. 3 offset aggressive power breakers. These produce a "Demolition" effect and create micro cracks in the drilled material. Up to 25% FASTER.
- Centering tip ensures immediate spot drilling with pin point accuracy. Prevents skidding on smooth surfaces.
- Enlarged rebar chamfers. Prevents side tip damage when hitting rebar. Reduces the risk of the drill bit jamming when hitting rebar.
- Tapered shoulder design. Thinner shoulder towards drill tip for less friction providing for greater speed. Ideal for cordless hammers identified from its tapered shoulder geometry.
- Reinforced flute. High volume flute geometry for optimum dust removal. Reinforced flute design (thicker core) gives: - Full power transfer to the tip. - Lower vibrations. - Exceptional break resistance, less breakages and best durability.
- Made in Germany.

	SDS-Plus Drill / Chisel set
Contents	SDS-Plus drill bits Ø 6 / 8 / 10 x 160 mm, pointed and flat chisel
Pack quantity	5
Supplied in	Metal case
