

## Dear Customers: Compliance Declarations

### REACH REGULATION ( SVHC substances included in the candidate list )

Regulation 1907/2006 of the European Union, concerning the Registration, Evaluation, Authorization and Restriction of Chemical Compounds ("REACH" regulation), identifies substances with particularly high impact (SVHC), classified as:

- carcinogenic, mutagenic and toxic for reproduction
- persistent, bio-accumulative and toxic to organisms (PBT's)
- very persistent and very bio-accumulative (vPvB's)
- with negative effects on the endocrine system

The European Chemical Compounds Agency (ECHA) periodically updates the list of SVHC substances. <https://echa.europa.eu/it/candidate-list-table>

Based on the information collected by our manufacturers, **we declare that all brand TE.CO. cables** do not contain these substances with reference to the update published by the ECHA authority on the 14/06/2023, in concentrations higher than 0.1% by weight / weight (w /w).

### ROHS COMPLIANCE DECLARATION Directive n° 2011/65/UE and Directive n° 2015/863 / UE

This declaration is issued under the responsibility of TE.CO. Tecnologia Commerciale S.p.A.  
Based on information collected from our manufacturers, TE.CO. Tecnologia Commerciale S.p.A. declares that all electrical cables **supplied under its own brand satisfy both requirements of the**

**Directive n. 2011/65 / UE (ROHS) and Directive n. 2015/863 / UE (applicable from 22/07/2019).**

TE.CO. Tecnologia Commerciale S.p.A does not allow the intentional introduction (1) of any of the substances referred to in the Directive with concentration higher than 0,1% by weight in homogeneous material (\*).

SUBSTANCE (2011/65/EU, 2015/863/EU)	Maximum limits of concentration
Lead	0,1% by weight in homogenous material*
Mercury	0,1% by weight in homogenous material*
Cadmium	0,01% by weight in homogenous material*
hexavalent chromium	0,1% by weight in homogenous material*
PBB (polybrominatedbiphenyls)	0,1% by weight in homogenous material*
PBDE polybrominated diphenyl ethers	0,1% by weight in homogenous material*
DEHP	0,1% by weight in homogenous material*
HBCCD	0,1% by weight in homogenous material*
BBP	0,1% by weight in homogenous material*
DBP	0,1% by weight in homogenous material*
DIBP	0,1% by weight in homogenous material*

\*homogenous material is a unit that cannot be mechanically crumbled

This statement has been arranged on basis of current legislation and regulations and our knowledge and skills. This declaration replaces all the previous ones related to this topic.  
It does not include other statements subsequently added by the user.

- (1) "intentional introduction" means "willfully used in material or component's form, in case of the willingness to obtain the continued presence of this substance in the final product, with the aim of giving to the product a special quality, feature or appearance (source: Commission Decision 2002/525/EC, 27 June 2002 amending attachment II of the 2000/53/EC directive of the European Parliament and of the Council.

The fact that these substances are not willfully added, doesn't exclude their accidental presence in negligible quantities as residues due to the features of the starting raw materials and/or because of the production process.
