

HOOK SOT 21.0x

TECHNICAL DATA

Type	d	K mm	B mm	L mm	Test load F_x /kN	Test load F_y /kN	Weight g
SOT 21.0	M20	80	120	200	14,5	4,6	1220
SOT 21.01	M20	80	120	240	14,5	4,6	1320
SOT 21.02	M20	80	120	320	14,5	4,6	1510
SOT 2103	M20	80	120	350	14,5	4,6	1580

USE Used with insulated overhead cables or service service cables. By using Ensto hooks, it is easy to build parallel lines. Maximum elastic deflection of hook under test load is 2mm.

MATERIAL Hot dip galvanised steel

INSTALLATION The hook is installed in a hole through the pole.

TOOLS REQUIRED Wrench

STANDARD SFS 2451 and SFS 2452
