

CABLE LUG KG 50

TECHNICAL DATA

Type	KG 50
For Al or Cu conductors	1 x (16 - 95) mm ² or 2 x (6 - 35) mm ²
Bolts	M6
Weight	100 g
Tightening torque	10 Nm

USE For connecting Al or Cu conductors to Al or Cu bars in distribution boards and components.

CONSTRUCTION

Component	Material
Bar	Tin plated copper
Bolts	Stainless steel
Pressure plates	Tin plated aluminium alloy

INSTALLATION

Unscrew the bolts and place the conductor into the groove. Tighten the bolts with hexagonal key to torque of 10 Nm.

TOOLS REQUIRED

Hexagonal key ST 32

MARKINGS KG 50

STANDARD SFS 2663, VDE 220 Teil 1/11.71 and Teil 2/11.71

PACKING 50 pcs in a cardboard box.
