

Product Data Sheet

TAG1750

Proxpad tag

TAG1750

The TAG1750 is a low frequency transparent blue tag for the 1750 Proxpad.

A laser engraving of the unique code of the IC chip of the tag is present on the inner side of the tag to help installers and customers to handle the tags used in their environment.

Standard Features

- Low frequency tag
- Laser engraving of unique ID
- Smooth curves for better grip
