Hoito-ohjeet

Suihkuseinä puhdistetaan vedellä ja kumilastalla tai lasinpesuaineella ja pehmeällä liinalla. Pinttyneeseen likaun suosittelemme etikkapohjaista pesuainetta. Huomioi, että puhdistussienet ja hankaavat puhdistusaineet voivat naarmuttaa sekä lasia että profiileja ja heloja.

Skötselråd

Rengör duschväggen med vatten och gummiskrapa eller med förnsterputs och mjuk trasa. Mot ingrodd smuts rekommenderas ättiksbaseerade rengöringsmedel. Tänk på att svampar och rengöringspasta med slipmedel kan repa såväl glas som kromade eller borstade detaljer och profiler.
