

MILLER®

MDP-4/ MDP 8-L

Miller dispensing pumps

- Square HDPE 8 oz (250 ml) high quality polypropylene container provides stability with plastic twist lock pump.
- Square HDPE 4 oz (118ml) container provides stability and offers stainless steel pump
- Pumps are durable and lightweight.
- Use with Isopropanol for proper cleaning of fibre during the cable preparation
- MDP-8L is a Euro Style bottle. The oval shaped bottle has a rectangular bottom for stability.
- One handed pump operation frees up user's hands
- Cam-lock hinge keeps lid open and closed to reduce odours
- Pump design with purity protector prevents fluid from re-entering the bottle
- Each touch of the pump dispenses approximately 2cc of Liquid
- Made in the U.S.A.
- Container is not supplied with liquid
