## Portable Fan Heater 9kW CEE plug

The fan heaters are designed for temporary or permanent heating for the possible use in constructions sites, in warehouses, workshops, weekend cottages and similar dry or wet areas. The ventilator motor has a low noise level and the specially shaped front grill controls the air flow and provides a wide heating area.

# Product arguments

- Robust design in corrosion-resistant galvanized sheet steel, can easily be installed on the wall using the supplied bracket
- Powerful fan motor with low noise level
- The heaters are designed for optimal air flow and quick heating
- The design of the fan gives the air flow a long throw length
- Intended for both temporary and permanent heating, IP 55 for use in combustible areas, for example, wood processing facilities, barns
- Variable thermostat 5° to 35°
- Supplied with 2 m cable with CEE connection plug 16A/400 V
- The overheating protection is reset manually on the control panel
- Do not load N (neutral)
- Equipped with zero voltage tripping
