Portable Fan Heater 2kW

The fan heaters are designed for temporary or permanent heating for the possible use in constructions sites, in warehouses, workshops, weekend cottages and similar dry or wet areas. The ventilator motor has a low noise level and the specially shaped front grill controls the air flow and provides a wide heating area.

Product arguments

- Robust design in corrosion-resistant galvanized sheet steel, can easily be installed on the wall using the supplied bracket
- Powerful fan motor with low noise level
- The heaters are designed for optimal air flow and quick heating
- The controlling screen on the front holds together the air flow, creating a greater throw length
- Intended for both temporary and permanent heating, IP 44 for use in damp areas
- Variable thermostat 5° to 35° , controls the heat and fan.
- Supplied with 2 m cable with connection plug
- The overheating protection automatically resets when the plug is removed and the fan has cooled
- Timer with up to 14 h switching delay, can be reconnected as a running time timer

Article No.: E8726301

Type: VF 21TA

Certifications:

Technical Data, VF 21TA

Incoming 2-pol/230V 16A Schuko E/F hybrid 1 pcs

Rated current 9,3 A

Voltage 1N-230 V

Output modes 0 - 1 - 2,15 kW

Timer 14 h

Air flow 250 m³/h

Noise level 34 dB(A)

Weight 6 kg

Dimensions H x W x D (mm) 300x260x300 mm

Protection class IP44
