

## CRC LOCK OIL (DE- ICER) WITH PTFE

Ref. : 10515 (86)

### 1. GENERAL DESCRIPTION

---

Door lock spray with PTFE.

A complex blend of oxygenated hydrocarbons, amine and corrosion inhibitors and PTFE dispersion.

CRC Lockoil quickly de-ices and lubricates all types of locks.

### 2. FEATURES

---

- Prevents freezing.
- Quickly dissolves ice, snow and frost.
- Prevents corrosion of lock parts.
- Gives a long lasting lubrication.
- The aerosol is pressurized with a hydrocarbon propellant.

### 3. APPLICATIONS

---

- All types of locks.

### 4. DIRECTIONS

---

- Shake before use.
- Push the spray button into the door lock and spray for about 1 second.
- Wait about 30 seconds before opening the lock with the key.
- Repeat if necessary.
- A safety data sheet (MSDS) according EU directive 93/112 is available for all CRC products.

### 5. TYPICAL PRODUCT DATA (without propellant)

---

Colour	: transparent
Temperature range	: -25° C to 0° C
Vapour pressure @20°C	: ± 4 bar
Specific gravity @20°C	: 0,79g/cm 3
Miscibility with water	: partly miscible

### 6. PACKAGING

---

aerosol : 24 x 40 ml

All statements in this publication are based on service experience and/or laboratory testing. Because of the wide variety of equipment and conditions and the unpredictable human factors involved, we recommend that our products be tested on-the-job prior to use. All information is given in good faith but without warranty neither expressed nor implied.

This Technical Data Sheet may already have been revised at this moment for reason such as legislation, availability of components and newly acquired experiences. The latest and only valid version of this Technical Data Sheet will be sent to you upon simple request or can be found on our website: [www.crcind.com](http://www.crcind.com).

We recommend you to register on this website for this product so you will be able to receive any future updated version automatically.
